

Experience Christmas

On the trail of the Christ Child

Nowhere is the birth of Jesus more tangible than in the Christmas cribs: Once again this year, these are set up throughout the churches of St. Gallen. Adults are invited to a thoughtful walk and learn new and unknown things about the biblical Christmas story - this year also from an interreligious perspective! Families with children will go on an interactive scavenger hunt. They will listen to a radio play and solve exciting riddles.

The two trails for adults will be offered in German, Italian, English and Albanian. The nativity trails for children and families are in German. The Nativity trails can be visited individually, as a couple or as a family. This way you protect yourself and others from infection. All QR codes and further information can be found at: www.kathsg.ch/krippenwege

We wish you a Merry Christmas!

QR codes for families with children

Our stations are visited on each route. All routes can be done on foot or by public transport and take about 2 hours.

For adults we recommend **ONE** smartphone per person and headphones.

1. Download the Actionbound app in „App Store“ or „Google Play free of charge
2. Select route
3. Select if family or adult route
4. Scan the desired QR code with the Actionbound app
5. And off you go!
